- III. New Business:**
- A. Discussion from the AT Council, is it appropriate for a PT to be able to provide aid on the field and return to play care?** Mr. Baird and Mr. Martin stated that ATs are trained in on-field treatment (e.g. concussion management) and that type of training would not be under physical therapy. They both believe that return to play is appropriate for either. Mr. Sanderson said that PTs are not trained in environmental medicine; therefore, he believes there are many differences between the professions. It was agreed that it is best to provide care within each profession's scope of practice.
