   (a) A licensee shall be designated a licensed podiatrist and shall not use any title or abbreviations without the designation licensed podiatrist, practice limited to the human foot, including the ankle and tendons which insert into the foot as well as the foot, and shall not mislead the public as to such licensee's limited professional qualifications to treat human ailments. Whenever a registered podiatrist, or words of like effect, is referred to or designated by any statute, contract or other document, such reference or designation shall be deemed to refer to or designate a licensed podiatrist.

   (b) The license of each licensed podiatrist shall expire on the date established by rules and regulations of the board which may provide renewal throughout the year on a continuing basis. In each case in which a license is renewed for a period of time of less than one year, the board may prorate the amount of the fee established under K.S.A. 65-2012 and amendments thereto. The request for renewal shall be on a form provided by the board and shall be accompanied by the renewal fee established under K.S.A. 65-2012 and amendments thereto which shall be paid not later than the expiration date of the license. At least 30 days before the expiration of a licensee's license, the board shall notify the licensee of the expiration by mail addressed to the licensee's last mailing address as noted upon the office records. If a licensee fails to pay the renewal fee by the date of expiration, the licensee shall be given a second notice that the licensee's license has expired and the license may be renewed only if the renewal fee and the late renewal fee are received by the board within the thirty-day period following the date of expiration and that, if both fees are not received within the thirty-day period, such licensee's license shall be canceled by operation of law and without further proceedings for failure to renew and shall be reissued only after the licensee has been reinstated under subsection (c).

   (c) Any licensee who allows the licensee's license to be canceled by failing to renew may be reinstated upon recommendation of the board and upon payment of the renewal fee and the reinstatement fee established pursuant to K.S.A. 65-2012 and amendments thereto and upon submitting evidence of satisfactory completion of the applicable reeducation and continuing education requirements established by the board. The board shall adopt rules and regulations establishing appropriate reeducation and continuing education requirements for reinstatement of persons whose licenses have been canceled for failure to renew.

   (d) The board, prior to renewal of a license, shall require the licensee, if in the active practice of podiatry within Kansas, to submit to the board evidence satisfactory to the board that the licensee is maintaining a policy of professional liability insurance as required by K.S.A. 40-3402 and amendments thereto and has paid the annual premium surcharge as required by K.S.A. 40-3404 and amendments thereto.

   (e) The board may issue a temporary permit to practice podiatry in this state to any person making application for a license to practice podiatry who meets the required
qualifications for a license and who pays to the board the temporary permit fee established pursuant to K.S.A. 65-2012 and amendments thereto. A temporary permit shall authorize the permittee to practice within the limits of the permit until the license is issued or denied to the permittee by the board.

(f) The board may issue a postgraduate permit to practice podiatry to any person engaged in a full-time, approved postgraduate study program; has made application for such postgraduate permit upon a form provided by the board; meets all the qualifications for a license, except the examination required under K.S.A. 65-2004, and amendments thereto; and has paid the fee established pursuant to K.S.A. 65-2012, and amendments thereto. The postgraduate permit shall be canceled if the permittee ceases to be engaged in the postgraduate study program.

(g) The board may issue, upon payment to the board of the temporary license fee established pursuant to K.S.A. 65-2012 and amendments thereto, a temporary license to a practitioner of another state or country who is appearing as a clinician at meetings, seminars or training programs approved by the board, if the practitioner holds a current license, registration or certificate as a podiatrist from another state or country and the sole purpose of such appearance is for promoting professional education.

(h) There is hereby created a designation of exempt license. The board is authorized to issue an exempt license to any licensee who makes written application for such license on a form provided by the board and remits the fee for an exempt license established under K.S.A. 65-2012 and amendments thereto. The board may issue an exempt license only to a person who has previously been issued a license to practice podiatry within Kansas, who is no longer regularly engaged in such practice and who does not hold oneself out to the public as being professionally engaged in such practice. An exempt license shall entitle the holder to all privileges attendant to the practice of podiatry. Each exempt license may be renewed annually subject to the other provisions of this section and other sections of the podiatry act. Each exempt licensee shall be subject to all provisions of the podiatry act, except as otherwise provided. The holder of an exempt license shall not be required to submit evidence of satisfactory completion of a program of continuing education required under the podiatry act. Each exempt licensee may apply for a license to regularly engage in the practice of podiatry upon filing a written application with the board and submitting evidence of satisfactory completion of the applicable and continuing education requirements established by the board. The request shall be on a form provided by the board and shall be accompanied by the license fee established under K.S.A. 65-2012 and amendments thereto. The board may issue an inactive license only to a person who meets all the requirements for a license to practice podiatry in Kansas, who is not regularly engaged in the practice of podiatry in Kansas, who does not hold oneself out to the public as being professionally engaged in such practice and who meets the definition of inactive health care provider as defined in K.S.A. 40-3401, and amendments thereto. An inactive license shall not entitle the holder to practice podiatry in this state. Each inactive license may be renewed subject to the provisions of this section. Each inactive licensee shall be subject to all provisions of
the podiatry act, except as otherwise provided in this subsection. The holder of an inactive license shall not be required to submit evidence of satisfactory completion of a program of continuing education required by K.S.A. 65-2010, and amendments thereto. Each inactive licensee may apply for a license to regularly engage in the practice of podiatry upon filing a written application with the board. The request shall be on a form provided by the board and shall be accompanied by the license fee established pursuant to K.S.A. 65-2012, and amendments thereto. For those licensees whose license has been inactive for less than two years, the board shall adopt rules and regulations establishing appropriate continuing education requirements for inactive licensees to become licensed to regularly practice podiatry within Kansas. Any licensee whose license has been inactive for more than two years and who has not been in the active practice of podiatry or engaged in a formal education program since the licensee has been inactive may be required to complete such additional testing, training or education as the board may deem necessary to establish the licensee's present ability to practice with reasonable skill and safety.

(j) There is hereby created a designation of federally active license. The board is authorized to issue a federally active license to any licensee who makes written application for such license on a form provided by the board and remits the same fee required for a license established under K.S.A. 65-2012, and amendments thereto. The board may issue a federally active license only to a person who meets all the requirements for a license to practice podiatry in Kansas and who practices podiatry solely in the course of employment or active duty in the United States government or any of its departments, bureaus or agencies or who, in addition to such employment or assignment, provides professional services as a charitable health care provider as defined under K.S.A. 75-6102, and amendments thereto. The provisions of subsections (b) and (c) of this section relating to expiration, renewal and reinstatement of a license and K.S.A. 65-2010, and amendments thereto, relating to continuing education shall be applicable to a federally active license issued under this subsection. A person who practices under a federally active license shall not be deemed to be rendering professional service as a health care provider in this state for purposes of K.S.A. 40-3402, and amendments thereto.

(k) Each license or permit granted under this act shall be conspicuously displayed at the office or other place of practice of the licensee or permittee.

(l) A person whose license has been revoked may apply for reinstatement of the license after the expiration of three years from the effective date of the revocation. Application for reinstatement shall be on a form provided by the board and shall be accompanied by a reinstatement of a revoked license fee established by the board under K.S.A. 65-2012, and amendments thereto. The burden of proof by clear and convincing evidence shall be on the applicant to show sufficient rehabilitation to justify reinstatement of the license. If the board determines a license should not be reinstated, the person shall not be eligible to reapply for reinstatement for three years from the effective date of the denial. All proceedings conducted on an application for reinstatement shall be in accordance with the provisions of the Kansas administrative procedure act and shall be reviewable in accordance with the Kansas judicial review act. The board, on its own motion, may stay the effectiveness of an order of revocation of license.

65-2006. Suspension, revocation or limitation of licenses and permits; grounds; consent to submit to mental or physical examination implied; professional incompetency and unprofessional conduct defined; hearing procedure.

(a) The board, upon hearing, may revoke, suspend or limit any license or permit to practice podiatry, may deny issuance or renewal of any such license or permit, or may publicly or privately censure a licensee or permittee, if the person holding or applying for such license or permit is found by the board to:

(8) have failed to submit proof of completion of a continuing education course required pursuant to the podiatry act;

(9) have engaged in the practice of podiatry under a false or assumed name or impersonated another podiatrist, but practice by a licensee or permit holder under a professional corporation or other legal entity duly authorized to provide podiatry services in the state shall not be considered to be practice under an assumed name;

(10) be unable to practice podiatry with reasonable skill and safe ty to patients by reason of any mental or physical condition, illness, alcoholism or excessive use of drugs, controlled substances or chemical or any other type of material;

(11) have had the person's license or permit to practice podiatry revoked, suspended or limited, or have had other disciplinary actions taken or an application for a license or permit denied, by the proper licensing authority of any state, territory or country or the District of Columbia;

Failure of a licensee or permit holder to submit to such examination when directed shall constitute an admission of the allegations against the licensee or permit holder, unless the failure was due to circumstances beyond the licensee's or permit holder's control. A person affected by this subsection shall be offered, at reasonable intervals, an opportunity to demonstrate that such person can resume the competent practice of podiatry with reasonable skill and safety to patients. Each licensee or permit holder accepting the privilege to practice podiatry in this state, by practicing podiatry in this state or by making and filing an application for a license or permit, or renewal of a license or permit, to practice podiatry in this state, shall be deemed to have consented to submit to a mental or physical examination when directed in writing by the board pursuant to this subsection and to have waived all objections to the admissibility of the testimony or examination report of the person conducting such examination at any proceeding or hearing before the board on the ground that such testimony or examination report constitutes a privileged communication. Article 28 – HEALING ARTS ACT

65-2809. Expiration date of licenses; continuing education requirements; evidence licensee maintaining professional liability insurance; notice of expiration; fees; cancellation of license; reinstatement, when; exempt licensees; inactive license; federally active license.

(a) The license shall be canceled on the date established by rules and regulations of the board which may provide renewal throughout the year on a continuing basis. In each case in which a license is renewed for a period of time of more or less than 12 months, the board may prorate the amount of the fee established under K.S.A. 65-2852, and amendments thereto. The request for renewal shall be on a form provided by the board and shall be accompanied by the prescribed fee, which shall be paid not later than the renewal date of the license.

(b) There is hereby created a designation of an active license. The board is authorized to issue an active license to any licensee who make written application for such license on a form provided by the board and remits the fee for an active license established pursuant to K.S.A. 65-2852, and amendments thereto. The board shall require every active licensee to submit evidence of satisfactory completion of a program of continuing education required by the board. The requirements for continuing education for licensees of each branch of the healing arts shall be established by rules and regulations adopted by the board.

(c) The board, prior to renewal of a license, shall require an active licensee to submit to the board evidence satisfactory to the board that the licensee is maintaining a policy of professional liability insurance as required by K.S.A. 40-3402, and amendments thereto, and has paid the premium surcharges as required by K.S.A. 40-3404, and amendments thereto.

(d) At least 30 days before the renewal date of a licensee’s license, the board shall notify the licensee of the renewal date by mail addressed to the licensee’s last mailing address as noted upon the office records. If the licensee fails to submit the renewal application and pay the renewal fee by the renewal date of the license, the licensee shall be given notice that the licensee has failed to submit the renewal application and pay the renewal fee by the renewal date of the license, that the license will be deemed canceled if not renewed within 30 days following the renewal date, that upon receipt of the renewal application and renewal fee and an additional fee established by rules and regulations of the board not to exceed $500 within the 30-day period the license will not be canceled and that, if both fees are not received within the 30-day period, the license shall be deemed canceled by operation of law and without further proceedings.

(e) Any license canceled for failure to renew may be reinstated within two years of cancellation upon recommendation of the board and upon payment of the renewal fees then due and upon proof of compliance with the continuing educational requirements established by the board by rules and regulations. Any person who has not been in the active practice of the branch of the healing arts for which reinstatement is sought or who has not been engaged in a formal educational program during the two years preceding the application for reinstatement may be required to complete such additional testing, training or education as the board may deem necessary to establish the licensee’s present ability to practice with reasonable skill and safety.
(f) There is hereby created a designation of exempt license. The board is authorized to issue an exempt license to any licensee who makes written application for such license on a form provided by the board and remits the fee for an exempt license established pursuant to K.S.A. 65-2852, and amendments thereto. The board may issue an exempt license to a person who is not regularly engaged in the practice of the healing arts in Kansas and who does not hold oneself out to the public as being professionally engaged in such practice. An exempt license shall entitle the holder to all privileges attendant to the branch of the healing arts for which such license is issued. Each exempt license may be renewed subject to the provisions of this section. Each exempt licensee shall be subject to all provisions of the healing arts act, except as otherwise provided in this subsection (f). The holder of an exempt license may be required to submit evidence of satisfactory completion of a program of continuing education required by this section. The requirements for continuing education for exempt licensees of each branch of the healing arts shall be established by rules and regulations adopted by the board. Each exempt licensee may apply for an active license to regularly engage in the practice of the appropriate branch of the healing arts upon filing a written application with the board. The request shall be on a form provided by the board and shall be accompanied by the license fee established pursuant to K.S.A. 65-2852, and amendments thereto. For the licensee whose license has been exempt for less than two years, the board shall adopt rules and regulations establishing appropriate continuing education requirements for exempt licensees to become licensed to regularly practice the healing arts within Kansas. Any licensee whose license has been exempt for more than two years and who has not been in the active practice of the healing arts or engaged in a formal educational program since the license has been exempt may be required to complete such additional testing, training or education as the board may deem necessary to establish the licensee’s present ability to practice with reasonable skill and safety. Nothing in this subsection (f) shall be construed to prohibit a person holding an exempt license from serving as a coroner or as a paid employee of: (1) A local health department as defined by K.S.A. 65-241, and amendments thereto; or (2) an indigent health care clinic as defined by K.S.A. 75-6102, and amendments thereto.

(g) There is hereby created a designation of inactive license. The board is authorized to issue an inactive license to any licensee who makes written application for such license on a form provided by the board and remits the fee for an inactive license established pursuant to K.S.A. 65-2852, and amendments thereto. The board may issue an inactive license only to a person who is not regularly engaged in the practice of the healing arts in Kansas, who does not hold oneself out to the public as being professionally engaged in such practice and who meets the definition of inactive health care provider as defined in K.S.A. 40-3401, and amendments thereto. An inactive license shall not entitle the holder to practice the healing arts in this state. Each inactive license may be renewed subject to the provisions of this section. Each inactive licensee shall be subject to all provisions of the healing arts act, except as otherwise provided in this subsection (g). The holder of an inactive license shall not be required to submit evidence of satisfactory completion of a program of continuing education required by K.S.A. 65-2809, and amendments thereto. Each inactive licensee may apply for an active license upon filing a written application with the board. The request shall be on a form provided by the board and shall be accompanied by the license fee established pursuant to K.S.A. 65-2852, and amendments thereto. For those licensees whose license has been inactive for less than two years, the board shall adopt rules and regulations establishing appropriate continuing education requirements for inactive licensees to become licensed to regularly practice the healing arts within Kansas. Any licensee whose license has been inactive for more than two years and who has not been in the active practice of the healing arts or engaged in a formal educational program since the license has been inactive may be required to complete such additional testing, training or education as the board may deem necessary to establish the licensee’s present ability to practice with reasonable skill and safety.

(h) (1) There is hereby created a designation of federally active license. The board is authorized to issue a federally active license to any licensee who makes written application for
such license on a form provided by the board and remits the same fee required for a license established under K.S.A. 65-2852, and amendments thereto. The board may issue a federally active license only to a person who meets all the requirements for a license to practice the healing arts in Kansas and who practices that branch of the healing arts solely in the course of employment or active duty in the United States government or any of its departments, bureaus or agencies. A person issued a federally active license may engage in limited practice outside of the course of federal employment consistent with the scope of practice of exempt licensees under subsection (f), except that the scope of practice of a federally active licensee shall be limited to the following: (A) Performing administrative functions, including peer review, disability determinations, utilization review and expert opinions; (B) providing direct patient care services gratuitously or providing supervision, direction or consultation for no compensation except that nothing in this subsection (h)(1)(B) shall prohibit a person licensed to practice the healing arts issued a federally active license from receiving payment for subsistence allowances or actual and necessary expenses incurred in providing such services; and (C) rendering professional services as a charitable health care provider as defined in K.S.A. 75-6102, and amendments thereto.

(2) The provisions of subsections (a), (b), (d) and (e) of this section relating to continuing education, cancellation, renewal and reinstatement of a license shall be applicable to a federally active license issued under this subsection.

(3) A person who practices under a federally active license shall not be deemed to be rendering professional service as a health care provider in this state for purposes of K.S.A. 40-3402, and amendments thereto.

(j) (1) There is hereby created the designation of reentry active license. The board is authorized to issue a reentry active license to any licensee who makes written application for such license on a form provided by the board and remits the fee for a reentry active license. The board may issue a reentry active license with requirements as the board may deem necessary to establish the licensee’s present ability to practice with reasonable skill and safety to a person who has not regularly engaged in the practice of the healing arts for at least two years, but who meets all the qualifications for licensure. The requirements for issuance, maintenance and scope of practice for a reentry active license shall be established by rules and regulations adopted by the board.

(2) The provisions of subsections (a), (b) and (d) of this section relating to continuing education, cancellation and renewal of a license shall be applicable to a reentry active license issued under this subsection.

65-2836. Revocation, suspension, limitation or denial of licenses; censure of licensee; grounds; consent to submit to mental or physical examination or drug screen, or any combination thereof, implied. A licensee’s license may be revoked, suspended or limited, or the licensee may be publicly censured or placed under probationary conditions, or an application for a license or for reinstatement of a license may be denied upon a finding of the existence of any of the following grounds:

(a) The licensee has committed fraud or misrepresentation in applying for or securing an original, renewal or reinstated license.

(b) The licensee has committed an act of unprofessional or dishonorable conduct or professional incompetency, except that the board may take appropriate disciplinary action or enter into a non-disciplinary resolution when a licensee has engaged in any conduct or professional practice on a single occasion that, if continued, would reasonably be expected to constitute an inability to practice the healing arts with reasonable skill and safety to patients or unprofessional conduct as defined in K.S.A. 65-2837, and amendments thereto.

(c) The licensee has been convicted of a felony or class A misdemeanor, or substantially similar offense in another jurisdiction, whether or not related to the practice of the healing arts. The licensee has been convicted in a special or general court-martial, whether or not related to the practice of the healing arts. The board shall revoke a licensee’s license following conviction of a felony or substantially similar offense in another jurisdiction, or following conviction in a general court-martial occurring after July 1, 2000, unless a 2/3 majority of the board members present and voting determine by clear and convincing evidence that such licensee will not pose a threat to the public in such person’s capacity as a licensee and that such person has been sufficiently rehabilitated to warrant the public trust. In the case of a person who has been convicted of a felony or convicted in a general court-martial and who applies for an original license or to reinstate a canceled license, the application for a license shall be denied unless a 2/3 majority of the board members present and voting on such application determine by clear and convincing evidence that such person will not pose a threat to the public in such person’s capacity as a licensee and that such person has been sufficiently rehabilitated to warrant the public trust.

(e) The licensee is addicted to or has distributed intoxicating liquors or drugs for any other than lawful purposes.

(g) The licensee has unlawfully invaded the field of practice of any branch of the healing arts in which the licensee is not licensed to practice.

(h) The licensee has engaged in the practice of the healing arts under a false or assumed name, or the impersonation of another practitioner. The provisions of this subsection relating to an assumed name shall not apply to licensees practicing under a professional corporation or other legal entity duly authorized to provide such professional services in the state of Kansas.

(i) The licensee’s ability to practice the healing arts with reasonable skill and safety to patients is impaired by reason of physical or mental illness, or condition or use of alcohol, drugs or controlled substances. All information, reports, findings and other records relating to impairment shall be confidential and not subject to discovery by or release to any person or entity outside of a board proceeding.
(j) The licensee has had a license to practice the healing arts revoked, suspended or limited, has been censured or has had other disciplinary action taken, or an application for a license denied, by the proper licensing authority of another state, territory, District of Columbia, or other country.

(k) The licensee has violated any lawful rule and regulation promulgated by the board or violated any lawful order or directive of the board previously entered by the board.

(l) The licensee has failed to report or reveal the knowledge required to be reported or revealed under K.S.A. 65-28,122, and amendments thereto.

(m) The licensee, if licensed to practice medicine and surgery, has failed to inform in writing a patient suffering from any form of abnormality of the breast tissue for which surgery is a recommended form of treatment, of alternative methods of treatment recognized by licensees of the same profession in the same or similar communities as being acceptable under like conditions and circumstances.

(n) The licensee has cheated on or attempted to subvert the validity of the examination for a license.

(o) The licensee has been found to be mentally ill, disabled, not guilty by reason of insanity, not guilty because the licensee suffers from a mental disease or defect or incompetent to stand trial by a court of competent jurisdiction.

(p) The licensee has prescribed, sold, administered, distributed or given a controlled substance to any person for other than medically accepted or lawful purposes.

(q) The licensee has violated a federal law or regulation relating to controlled substances.

In the absence of my ability to give directions regarding the use of such life-sustaining procedures, it is my intention that this declaration shall be honored by my family and physician(s) as the final expression of my legal right to refuse medical or surgical treatment and accept the consequences from such refusal.
I understand the full import of this declaration and I am emotionally and mentally competent to make this declaration.

(a) For the purpose of paying for storage, maintenance and transfer of medical records by the board of healing arts, there is hereby established the medical record maintenance trust fund. All payments and disbursements from the medical records maintenance trust fund shall be made upon warrants of the director of accounts and reports issued pursuant to vouchers approved by the executive director of the board or by any person designated by the board.
(b) The board may certify to the director of accounts and reports that a specific amount, but not more than $10, of each fee for the issuance or renewal of a license be credited to the medical records maintenance trust fund until such time the balance exceeds $100,000. At any time the balance in the medical records trust fund falls below $100,000, the board shall certify again to the director of accounts and reports that a specific amount, but not to exceed $10, of each fee for the issuance or renewal of a license be deposited in the state treasury and credited to the medical records maintenance trust fund. The board may order a licensee to reimburse the amount of expenses incurred by the board in a case when such licensee failed to designate a custodian or provide for the storage, maintenance, transfer and access to such licensee’s medical records upon becoming inactive. Upon receipt of each such remittance, the state treasurer shall deposit the entire amount in the state treasury to the credit of the medical records maintenance trust fund. All funds deposited and credited to the medical records maintenance fund shall be expended for the purposes set forth in this section.
(c) On or before the 10th day of each month, the director of accounts and reports shall transfer from the state general fund to the medical records maintenance trust fund interest earnings based on: (1) The average daily balance of moneys in the medical records maintenance trust fund for the preceding month; and (2) the net earnings rate of the pooled money investment portfolio for the preceding month.

Chapter 65 – PUBLIC HEALTH
Article 68 – HEALTH CARE DATA ACT

65-6836. Health care records; provision of copies; enforcement of act; costs; definitions.
(a) As used in this section:
(1) “Health care provider” means any person licensed by the state board of healing arts.
(2) “Authorized representative” means the person designated in writing by the patient to obtain the health care records of the patient or the person otherwise authorized by law to obtain the health care records of the patient.
(3) “Authorization” means a written or printed document signed by a patient or a patient’s authorized representative containing: (A) A description of the health care records a health care provider is authorized to produce; (B) the patient’s name, address and date of birth; (C) a
designation of the person or entity authorized to obtain copies of the health care records; (D) a date or event upon which the force of the authorization shall expire which shall not exceed one year; (E) if signed by a patient’s authorized representative, the authorized representative’s name, address, telephone number and relationship or capacity to the patient; and (F) a statement setting forth the right of the person signing the authorization to revoke it in writing.

(b) Subject to K.S.A. 2014 Supp. 65-6824, and amendments thereto, except as otherwise provided herein, copies of health care records shall be furnished to a patient, a patient’s authorized representative or any other person or entity authorized by law to obtain or reproduce such records, within 30 days of the receipt of the authorization, or the health care provider shall notify the patient or the patient’s authorized representative of the reasons why copies are not available. A health care provider may withhold copies of health care records if the health care provider reasonably believes that providing copies of the requested records will cause substantial harm to the patient or another person. Health care providers may condition the furnishing of the patient’s health care records to the patient, the patient’s authorized representative or any other person or entity authorized by law to obtain or reproduce such records, upon the payment of charges not to exceed those established and updated not less than every two years by rules and regulations adopted by the state board of healing arts. In establishing such charges, the board shall consider changes in the all-items consumer price index published by the United States department of labor. Providers may charge for the reasonable cost of all duplications of health care record information which cannot be routinely duplicated on a standard photocopy machine.

(c) Any health care provider, patient, authorized representative or any other entity authorized by law to obtain or reproduce such records may bring a claim or action to enforce the provisions of this section. The petition shall include an averment that the party bringing the action has in good faith conferred or attempted to confer with the other party concerning the matter in dispute without court action. Upon a showing that the failure to comply with this section was without just cause or excuse, the court shall award the costs of the action and order the records produced without cost or expense to the prevailing party.

(d) Nothing in this section shall be construed to prohibit the state board of healing arts from adopting and enforcing rules and regulations not inconsistent with this section that require licensees of the board to furnish health care records to patients or to their authorized representative. To the extent that the board determines that an administrative disciplinary remedy is appropriate for violation of such rules and regulations, that remedy is separate from and in addition to the provisions of this section.

(d) Each patient record shall include any writing intended to be a final record, but shall not require the maintenance of rough drafts, notes, other writings, or recordings once this information is converted to final form. The final form shall accurately reflect the care and services rendered to the patient.

100-24-2. Patient record storage. (a) Each licensee shall maintain the patient record for a minimum of 10 years from the date the licensee provided the professional service recorded. Any licensee may designate an entity, another licensee, or health care facility to maintain the record if the licensee requires the designee to store the record in a manner that allows lawful access and that maintains confidentiality.

(b) “Local anesthesia” means a drug that, when administered to a localized part of the human body by topical application or by local infiltration in close proximity to a nerve, produces a transient and reversible loss of sensation. This term shall include lidocaine injections not exceeding seven milligrams per kilogram of body weight and also tumescent local anesthesia.

(c) “Medical care facility” has the meaning specified in K.S.A. 65-425 and amendments thereto.

65-2910.  Renewal of license or certification; renewal requirements; expiration notice; fees; cancellation; reinstatement; inactive license; exempt license; federally active license.

(a) The license of every licensed physical therapist and the certification of every certified physical therapist assistant shall expire on the date established by rules and regulations of the board which may provide renewal throughout the year on a continuing basis. In each case in which a license or certificate is renewed for a period of time of less than one year, the board may prorate the amount of the fee established under K.S.A. 65-2911 and amendments thereto. The request for renewal shall be on a form provided by the board and shall be accompanied by the renewal fee established under K.S.A. 65-2911 and amendments thereto which shall be paid not later than the expiration date of the license or certificate.

(b) The board shall require every licensed physical therapist or certified physical therapist assistant as a condition of renewal to submit with the application for a renewal evidence of satisfactory completion of a program of continuing education required by the board. The board shall establish the requirements for each such program of continuing education by rules and regulations. In establishing such requirements the board shall consider any existing programs of continuing education currently being offered to licensed physical therapists or certified physical therapist assistants.

(c) At least 30 days before the expiration of the license of a physical therapist or the certificate of a physical therapist assistant, the board shall notify the licensee or certificate holder of the expiration by mail addressed to the licensee's last mailing address as noted upon the office records. If the licensee or certificate holder fails to pay the renewal fee by the date of expiration, the licensee or certificate holder shall be given a second notice that the license or certificate has expired and the license or certificate may be renewed only if the renewal fee and the late renewal fee are received by the board within the thirty-day period following the date of expiration and that, if both fees are not received within the thirty-day period, the license or certificate shall be canceled for failure to renew and shall be reissued only after the physical therapist or physical therapist assistant has been reinstated under subsection (d).

(d) Any licensee or certificate holder who allows the license or certificate to be canceled by failing to renew may be reinstated upon recommendation of the board, upon payment of the reinstatement fee and upon submitting evidence of satisfactory completion of any applicable reeducation and continuing education requirements established by the
board. The board shall adopt rules and regulations establishing appropriate reeducation and continuing education requirements for reinstatement of persons whose licenses or certificates have been canceled for failure to renew.

(e) (1) There is hereby created the designation of inactive license. The board is authorized to issue an inactive license to any physical therapist who makes written application for a license as a physical therapist on a form provided by the board and remits the fee established pursuant to K.S.A. 65-2911, and amendments thereto. The board may issue an inactive license only to a person who meets all the requirements for a license to practice as a physical therapist and who does not actively practice as a physical therapist in this state. An inactive license shall not entitle the holder to render professional services as a physical therapist. The provisions of subsections (c) and (d) relating to expiration, renewal and reinstatement of a license shall be applicable to an inactive license issued under this subsection. Each inactive licensee may apply to engage in active practice by providing to the board proof that a policy of professional liability insurance will be maintained in compliance with K.S.A. 2011 Supp. 65-2920, and amendments thereto, and rules and regulations adopted by the board.

(2) For the licensee whose license has been inactive for less than two years, the board shall adopt rules and regulations establishing appropriate continuing education requirements for exempt licensees to become licensed to regularly practice physical therapy within Kansas. Any licensee whose license has been inactive for more than two years may be required to complete such additional testing, training or education as the board may deem necessary to establish the licensee's present ability to practice with reasonable skill and safety.

(f) (1) There is hereby created a designation of exempt license. The board is authorized to issue an exempt license to any licensee who makes written application for such license on a form provided by the board and remits the fee for an exempt license established pursuant to K.S.A. 65-2911, and amendments thereto. The board may issue an exempt license to a person who is not regularly engaged in the practice of physical therapy in Kansas and who does not hold oneself out to the public as being professionally engaged in such practice. An exempt license shall entitle the holder to all privileges attendant to the practice of physical therapy for which such license is issued. Each exempt license may be renewed subject to the provisions of this section. Each exempt licensee shall be subject to all provisions of the physical therapy act, except as otherwise provided in this subsection. The holder of an exempt license shall be required to submit evidence of satisfactory completion of a program of continuing education required by this section. Each exempt licensee may apply for a license to regularly engage in the practice of physical therapy upon filing a written application with the board. The request shall be on a form provided by the board and shall be accompanied by the license fee established pursuant to K.S.A. 65-2911, and amendments thereto.

(2) For the licensee whose license has been exempt for less than two years, the board shall adopt rules and regulations establishing appropriate continuing education requirements for exempt licensees to become licensed to regularly practice physical therapy within Kansas. Any licensee whose license has been exempt for more than two years and who has not been in the active practice of physical therapy or engaged in a formal educational program since the license has been exempt may be required to complete such additional testing, training or education as the board may deem necessary to establish the licensee's present ability to practice with reasonable skill and safety.

(3) Nothing in this subsection shall be construed to prohibit a person holding an exempt license from serving as a paid employee or unpaid volunteer of: (A) A local health department as defined by K.S.A. 65-241, and amendments thereto, or (B) an indigent health care clinic as defined by K.S.A. 75-6102, and amendments thereto.
4) A person who practices under an exempt license shall not be deemed to be rendering professional service as a physical therapist in this state for the purposes of K.S.A. 2011 Supp. 65-2920, and amendments thereto.

(g) (1) There is hereby created a designation of federally active license. The board is authorized to issue a federally active license to any licensee who makes written application for such license on a form provided by the board and remits the same fee required for a license established under K.S.A. 65-2911, and amendments thereto. The board may issue a federally active license only to a person who meets all the requirements for a license to practice physical therapy in Kansas and who practices that branch of physical therapy solely in the course of employment or active duty in the United States government or any of its departments, bureaus or agencies. A person issued a federally active license may engage in limited practice outside of the course of federal employment consistent with the scope of practice of exempt licenses under subsection (f), except that the scope of practice of a federally active licensee shall be limited to providing direct patient care services gratuitously or providing supervision, direction or consultation for no compensation except that nothing in this subsection (g)(1) shall prohibit a person licensed to practice physical therapy issued a federally active license from receiving payment for subsistence allowances or actual and necessary expenses incurred in providing such services; and rendering professional services as a charitable health care provider as defined in K.S.A. 75-6102, and amendments thereto.

(2) The provisions of subsections (a), (b), and (d) of this section relating to continuing education, expiration and renewal of a license shall be applicable to a federally active license issued under this subsection.

(3) A person who practices under a federally active license shall not be deemed to be rendering professional service as a physical therapist in this state for the purposes of K.S.A. 2011 Supp. 65-2920, and amendments thereto.

(a) The license shall be canceled on March 31 of each year unless renewed in the manner prescribed by the board. In each case in which a license is renewed for a period of time of less than 12 months, the board may prorate the amount of the fee established under K.S.A. 2016 Supp. 65-7611, and amendments thereto. The request for renewal shall be on a form provided by the board and shall be accompanied by the prescribed fee, which shall be paid not later than the renewal date of the license.

(b) There is hereby created a designation of an active license. The board is authorized to issue an active license to any licensee who makes written application for such license on a form provided by the board and remits the fee established pursuant to K.S.A. 2016 Supp. 65-7611, and amendments thereto. The board shall require every active licensee to submit evidence of satisfactory completion of a program of continuing education required by the board. The requirements for continuing education for licensed acupuncturists shall be established by rules and regulations adopted by the board.

(c) The board, prior to renewal of a license, shall require an active licensee to submit to the board evidence satisfactory to the board that the licensee is maintaining a policy of professional liability insurance. The board shall fix by rules and regulations the minimum level of coverage for such professional liability insurance.

(d) At least 30 days before the renewal date of a licensee’s license, the board shall notify the licensee of the renewal date by mail addressed to the licensee’s last known mailing address. If the licensee fails to submit the renewal application and pay the renewal fee by the renewal date of the license, the licensee shall be given notice that the licensee has failed to submit the renewal application and pay the renewal fee by the renewal date of the license, that the license will be deemed canceled if not renewed within 30 days following the renewal date, that upon receipt of the renewal application and renewal fee and an additional late fee established by rules and regulations not to exceed $500 within the 30-day period, the license will not be canceled and that, if both fees are not received within the 30-day period, the license shall be deemed canceled by operation of law and without further proceedings.
(e) Any license canceled for failure to renew may be reinstated within two years of cancellation upon recommendation of the board and upon payment of the renewal fees then due and upon proof of compliance with the continuing education requirements established by the board by rules and regulations. Any person who has not been in the active practice of acupuncture for which reinstatement is sought or who has not been engaged in a formal educational program during the two years preceding the application for reinstatement may be required to complete such additional testing, training or education as the board may deem necessary to establish the licensee’s present ability to practice with reasonable skill and safety.

(f) There is hereby created a designation of an exempt license. The board is authorized to issue an exempt license to any licensee who makes written application for such license on a form provided by the board and remits the fee established pursuant to K.S.A. 2016 Supp. 65-7611, and amendments thereto. The board may issue an exempt license to a person who is not regularly engaged in the practice of acupuncture in Kansas and who does not hold oneself out to the public as being professionally engaged in such practice. An exempt license shall entitle the holder to all privileges attendant to the practice of acupuncture for which such license is issued. Each exempt license may be renewed subject to the provisions of this section. Each exempt licensee shall be subject to all provisions of the acupuncture practice act, except as otherwise provided in this subsection. The holder of an exempt license may be required to submit evidence of satisfactory completion of a program of continuing education required by this section. For the licensee whose license has been exempt for less than two years, the board shall adopt rules and regulations establishing appropriate continuing education requirements for exempt licensees to become licensed to regularly practice acupuncture within Kansas. Any licensee whose license has been exempt for more than two years and who has not been in the active practice of acupuncture since the license has been exempt may be required to complete such additional testing, training or education as the board may deem necessary to establish the licensee’s present ability to practice with reasonable skill and safety. Nothing in this subsection shall be construed to prohibit a person holding an exempt license from serving as a paid employee of: (1) A local health department as defined by K.S.A. 65-241, and amendments thereto; or (2) an indigent health care clinic as defined by K.S.A. 75-6102, and amendments thereto.

The board is authorized to issue an inactive license to any licensee who makes written application for such license on a form provided by the board and remits the fee established pursuant to K.S.A. 2016 Supp. 65-7611, and amendments thereto. The board may issue an inactive license only to a person who is not regularly engaged in the practice of acupuncture in Kansas and who does not hold oneself out to the public as being professionally engaged in such practice. An inactive license shall not entitle the holder to practice acupuncture in this state. Each inactive license may be renewed subject to the provisions of this section. Each inactive licensee shall be subject to all provisions of the acupuncture practice act, except as otherwise provided in this subsection. The holder of an inactive license shall not be required to submit evidence of satisfactory completion of a program of continuing education required by subsection (b). Each inactive licensee may apply for an active license upon filing a written application with the board. The request shall be on a form provided by the board and shall be accompanied by the license fee established pursuant to K.S.A. 2016 Supp. 65-7611, and amendments thereto.
