DISCIPLINARY PROCEDURE

The Kansas State Board of Healing Arts (“Board”) is comprised of 15 members appointed by the Governor, 12 licensees, and 3 members from the general public. The Board licenses or registers 13 health care professions and out-of-state contact lens distributors. The mission of the Board is to protect the public by requiring those professionals to meet and maintain certain qualifications and standards of conduct.

WHOM DOES THE BOARD REGULATE?

- Medical Doctors (M.D.)
- Osteopathic Doctors (D.O.)
- Chiropractic Doctors (D.C.)
- Podiatric Doctors (D.P.M.)
- Naturopathic Doctors (N.D.)
- Physician’s Assistants (P.A.)
- Physical Therapists (P.T.)
- Physical Therapist Assistants (P.T.A.)
- Occupational Therapists (O.T.)
- Occupational Therapy Assistants (O.T.A.)
- Respiratory Therapists (R.T.)
- Athletic Trainers (A.T.)
- Radiologic Technologists (L.R.T.)
- Contact Lens Distributors

The Board does NOT have disciplinary jurisdiction over any other healthcare professions, hospitals, or other healthcare facilities. Please see last page for other regulatory agencies.

When a complaint is received by Board staff an initial determination is made: the complaint must pertain to the practice of a profession licensed by the Board, and must allege facts constituting a violation of the laws administered by the Board. These two requirements are necessary to open a case for investigation. If the complaint contains insufficient information, more information may be requested from the complainant.

EXAMPLES OF PROHIBITED CONDUCT

- Commissions of acts of gross negligence or multiple acts of ordinary negligence;
- Conviction of a felony or Class A misdemeanor;
- Fraudulent or false advertising;
- Fraudulent billing;
- Prescribing or distributing drugs for other than lawful purposes;
- The inability to practice the healing arts with reasonable skill and safety to patients by reason of illness, alcoholism, excessive use of drugs, or any mental or physical condition;
- Sexual abuse, misconduct or exploitation related to the person's practice;
- Referring a patient to a health care entity for services, if the licensee/registrant has a significant investment interest in the entity, (10% ownership or more) unless the person regulated by the Board informs the patient of the interest in writing, and that patient may obtain such services elsewhere;
- Other acts as proscribed by law.

Once a case is opened, it is assigned to an investigator. The investigation usually involves obtaining medical records from the licensee/registrant and any necessary health care facility. It may also involve interviewing witnesses, visiting facilities, obtaining drug profiles and getting information from law enforcement or other regulatory agencies, in this state or elsewhere. Board investigations are time consuming and may take several months, depending on the seriousness and complexity of the allegations.

Board investigations are required by law to be confidential, pursuant to K.S.A. 65-2898a. Therefore, there are limits to what information may be released, even to the person making the complaint. The Board has broad authority to obtain information even though the information may otherwise be confidential as a privileged communication. However, other information may be available only with the patient's specific consent.

Once a complaint is investigated, it undergoes a review process. If the issue involves competency, the case may be reviewed by a panel of peers to determine whether the standard of care was met.

If the issue involves unprofessional conduct (sexual misconduct, false advertising, etc.), the case is reviewed by a staff attorney to determine whether there is sufficient evidence of a violation of the statutes and regulations. If there is evidence of a violation, the case is reviewed by a panel of the Board to determine what action, if any, to take. At that time, a petition may be filed against the licensee/registrant. The purpose of the petition is to seek public disciplinary action against the licensee/registrant.

The petition may be heard by a Hearing Officer who will provide an initial determination to the Board about the case. The licensee/registrant or the Board's attorney may then ask the Board to review the case. Either before or after the hearing, the attorneys representing the Board and the licensee/registrant may negotiate an agreement to resolve the case, for submission to the Board for approval.

The Board has the legal authority to revoke, suspend, or limit licenses/registrations, impose fines, reprimand, require monitoring or additional education, or other remedial measures. **The Board does not represent individuals, nor obtain compensation on behalf of individuals. Each person is free to seek legal representation if they believe it is necessary. Board investigations and reviews are not subject to discovery by private litigants.**

If you have any questions regarding the functions of the Board, please call (785) 296-7413.
