

2011 Medical Record Fees

K.S.A. 65-4971(b) established the maximum fees that medical care providers can charge for reproduction of medical records (non-workers compensation records). By law, these fees are adjusted on January 1 of each year by the Secretary of Labor, "in accordance with the all-items consumer price index published by the United States Department of Labor."

The all-items Consumer Price Index (CPI) increased from 214.5 in 2009 to 218.1 in 2010. This represents an increase of 1.6 percent. This change is applied to the medical fee cost schedule below.

	<u>January 2010</u>	<u>January 2011</u>
Cost of supplies and labor	\$18.11	\$18.40
First 250 pages	\$0.60	\$0.61
Additional pages	\$0.43	\$0.44

The release of the December 2011 CPI data has not yet been scheduled by the Bureau of Labor Statistics. Please contact us if there are questions or further assistance is needed.
